

ASME Tangential Air Separators

Features

- ASME constructed and stamped
- 125 psig design pressure
- 375°F maximum operating temperature
- Carbon steel construction—painted
- Tangential design results in small unit
- Provides air free fluid flow which protects against damage and system noises
- Helps prevent waterlogged compression tanks
- Stainless steel strainer

Options

- Higher working pressures available
- Special materials available
- Grooved connections available
- Nozzle sizes up to 24" available upon request
